PROFESSIONAL EXPERIENCE

Web Developer

September 2025 - Present

VA4U - Tools Australia

- Designed and developed a full-stack eCommerce rewards and giveaway platform within 2 months, including a complete admin dashboard for analytics, user, and product management.
- Integrated third-party services: Stripe (payments), Meta CAPI & Marketing API (tracking), SendGrid & Klaviyo (email automation), and Hotjar (user behavior insights).
- Scaled platform to 20,000+ users, generating 50 daily conversions and AUD 3,000–5,000 in daily revenue.
- Improved SEO performance, increasing organic traffic and user acquisition.

Full Stack Developer

March 2025 - Present

Self-Employed - Part-time/Freelance

- Delivered 3 complete full stack applications and contributed to 1 long-term code maintenance project, achieving 100% client satisfaction.
- Migrated a Vue.js web application to React.js, improving maintainability and enabling easier feature updates.
- converted a wordpress website to inertiaJS
- Design UI/UX in figma and converted into code

Project Engineer

August 2023 - April 2025

Urban Development Corporation

- Managed ₱50–₱60M budgets and coordinated cross-functional teams, applying structured project management to deliver 3 large-scale builds 100% on schedule.
- Led end-to-end execution from blueprint to delivery, ensuring scope alignment and stakeholder satisfaction — skills now applied to software project lifecycles.
- Streamlined workflows, accelerating project timelines by 15%, demonstrating process optimization transferable to agile software development.

EDUCATION

Full Stack Web Development Course

Zuitt Coding Bootcamp

April 2025 - June 2025

Bachelor of Science in Civil Engineering

Technological Institute of the Philippines - QC

2018 - 2022

PROFESSIONAL HIGHLIGHTS

- Built and launched Tools Australia, a full-stack eCommerce rewards platform with 20,000+ users and consistent daily revenue generation
- Delivered 3 freelance full stack web applications achieving 100% client satisfaction.
- Transitioned from managing ₱50–₱60M civil engineering projects to building scalable software solutions with the same precision and discipline.
- Consistently deliver complex, high-value projects on time and within budget in both construction and software development.
